Phone: 814-643-4140

August 13, 2024

Dear Parents and Guardians:

The Huntingdon Area School District approved the ability for families to waive the payment of device insurance (iPad & Chromebook) again for the upcoming school year. The district is passing along savings to you as we have had over a 50% decrease in breakage over the past year reducing expenditures and the technology department has found another more cost-efficient solution. This is great news! The board will evaluate the need to purchase annually.

Families that purchased device insurance for iPads or Chromebooks during the 2022-2023 AND the 2023-2024 school year will have a one (1) year reprieve and will not have to purchase device insurance for the 2024-2025 school year.

Families that **did not** purchase device insurance during the 2022-2023 AND the 2023-2024 school year will have the option to purchase device insurance for the 2024-2025 school year. This would include any new students including our kindergarten students. Please watch for the device insurance form to be sent home with your student on the first day of school or located on the webpage for printing. **Forms and Payment are due by September 27, 2024 to receive coverage if not covered on the waiver.**

Fee Schedule

| Status: | Not Eligible for Free or Reduced Lunch | Eligible for Reduced Lunch | Eligible for Free Lunch |
|------------------|--|----------------------------|-------------------------|
| INDIVIDUAL PLAN: | \$30 | \$20 | \$10 |
| FAMILY PLAN: | \$50 | \$25 | \$15 |

Please note that purchasing insurance is not a requirement, however, **it is strongly recommended** that insurance be purchased as a protection for the family from accidental loss or damage to the devices. **If the device is damaged or lost and insurance is not purchased, the family will be monetarily responsible for the cost of the device or repair costs. The minimal cost of insurance is well worth the money.**
