## Huntingdon Area School District 2019-20 Chromebook/iPad Insurance Form

The Huntingdon Area School District is offering families the opportunity to protect district-owned Chromebook/iPads ("device") utilized by learners. This optional plan protects the device against accidental damage (drops/spills), loss or theft, fire, flood, and natural disasters. The plan will also act as an extension of the manufacturer's warranty against defects. Insurance is highly recommended, although it is not mandatory. **Insurance is mandatory if the learner's parent/guardian chooses to allow the device to be taken home.** If you choose **not** to purchase insurance, the parent/guardian is financially responsible for all repair or replacement costs of the device and its accessories.

Parents/Learners purchasing insurance will be responsible for the following deductibles:

• 1<sup>st</sup> Claim: \$25

• 2<sup>nd</sup> Claim: \$150 or cost of repair (whichever is less)

• 3<sup>rd</sup> Claim: Full value of repair/replacement (iPad: \$350, Chromebook: \$200)

Claims submitted are per individual child, not per family and are on a per-year basis. Learners will be responsible for the care of devices and device accessories, including, but not limited to: keyboard, case and charger. Devices can be tracked by their serial numbers. The insurance fee scale for the 2019-20 school year is listed below. If you qualify for free or reduced lunch status, you also qualify for reduced insurance costs.

Fees will be assessed for all learners/families wishing to purchase insurance for the 2019-2020 school year.
