August 13, 2024

Dear Families and Guardians:

The district is continually improving our safety practices and protocols. We are proud to announce a new visitor kiosk system at each one of our building lobby entrances purchased with school safety grant funds. When you come to any of the district's lobbies you will now see an automated system for checking and recording visitors to the building.

Please be advised that you will need to bring photo identification such as your driver's license when arriving at the school for the first time this year to gain entry as the system will do a security check. If you do not have a photo identification the system will use another method to identify you. The system will generate a visitor's pass for you to wear upon entering. This self-service system will assist visitors more efficiently as our front office areas are busy places.

All Front offices will have dropoff areas located directly in the lobby as well for families to bring items students have forgotten such as lunches, projects, gym clothes, or other items to reduce the amount of traffic needed in the offices. Simply ring the bell and the staff will allow entry and communication with you about the items your student needs.

We know that schools that have locked entrances with reduced traffic and safe visitor entry have better success at keeping students safe. Our goal is not to keep families from volunteering or attending student meetings or events, but simply to keep students safe.

Jennifer Mitchell
Superintendent
Huntingdon Area School District
