“All Learners, All Futures”

Amy J. Mykut, Principal

John Miller, Building Leader

November 17, 2020

Dear Parents/Guardians:

The Huntingdon Area School District administration was informed today that an elementary school learner had tested positive for Covid-19. The positive test result from this case **did not** impact any other learners or staff members at Standing Stone Elementary School because of being in a remote learning environment. I want to reiterate that we **did not** have to conduct contact tracing as per our procedures and guidelines from the DOH.

The Huntingdon Area School District administration has been and will continue to be in communication with the Department of Health (DOH). The administration will monitor all situations regarding Covid-19 and will keep parents/guardians informed.

We appreciate your cooperation with this manner and are mindful about the challenges presented to the learner and the school learning environment. Please contact the school office if you have any questions or concerns.

Sincerely,

Amy Mykut

Amy Mykut,
Standing Stone Elementary Principal
