

SENIOR UPDATE

March 27, 2024 | Huntingdon Area High School

Graduation Picture Options

This year, seniors will have two opportunities to have graduation photos taken. Dale Manning of Tyrone will be taking head shots in cap & gown of all seniors in late April and offering families package options. He would also like to offer yard signs for \$16 but will need a large portion of the class to select this option for it to be feasible. Please complete the survey of participation when sent to show if you might have interest in purchasing. Megan Brenneman will also be on-hand graduation night to take senior shots prior to the ceremony as well as photos of students receiving their diplomas, which will then be available for purchase afterward.

Caps and Gowns

In the coming weeks, caps and gowns will be distributed. Seniors should be sure to take them out of the packaging and hang them up immediately upon arriving home. A cool iron or steamer can be used to help remove wrinkles.

Be sure to also check that your cap is in good condition and that you have a graduation tassel as well. Seniors should be sure that, if decorating their caps, designs should be appropriate and allow the cap to still sit properly on their heads. More on that next month!

Coming up for May...

Toward the end of April, we will send another newsletter update with important senior dates and other graduation information. Two things seniors should be preparing for in early May are the career-related Senior Symposium on May 2 and the state-required civics exam, given in their government classes either the week of April 29 or of May 6.
